

PASINDU PRABASHWARA

Associate Full Stack Developer

upasinduprabashwara@gmail.com · 071 035 5574 · [Portfolio](#) · github.com/pasinduprabashwara2000 · Kaluthara, Sri Lanka

PROFESSIONAL SUMMARY

Dedicated Associate Full Stack Developer with 3+ years of combined ICT and software development experience. Currently reading BSc (Hons) in Computing at Wrexham University (UK) and completing a Full Stack Developer internship at BASE IT. Skilled in building end-to-end web and enterprise applications using Java, Spring Boot, React, and Node.js. Experienced in MVC and layered architectures, relational and NoSQL databases, RESTful APIs, and CI/CD pipelines. Proven ability to deliver quality software in Agile environments across Windows and Linux platforms.

TECHNICAL SKILLS

Languages	Java, JavaScript, PHP, HTML5, CSS3
Frameworks	Spring Boot, Node.js, React, Bootstrap, Java Swing, JavaFX, Thymeleaf
Databases	Hibernate, MySQL, PostgreSQL, Oracle DB,
Architecture	MVC, Layered Architecturer
Security	Spring Security, JWT Authentication, Role-Based Access Control
CI/CD & DevOps	Git, GitHub Actions, Docker, Maven, Gradle
API & Testing	REST APIs, Postman, JUnit, Integration Testing
Cloud & Infra	Linux (Ubuntu), Windows Server, Basic AWS (EC2, S3)
IDEs & Tools	IntelliJ IDEA, VS Code, WebStorm, PhpStorm, DataGrip, NetBeans, Visual Studio

WORK EXPERIENCE

Full Stack Developer Intern · BASE IT

March 2025 – August 2025 | Horana, Sri Lanka

- Developed and maintained full-stack web features using React (frontend) and Spring Boot (backend), improving user-facing load times by refactoring API response handling.
- Built RESTful APIs consumed by multiple client applications; documented and tested all endpoints using Postman to ensure correctness and consistency.
- Designed and optimised relational database schemas in MySQL and PostgreSQL; wrote complex JOIN queries and stored procedures to support reporting features.
- Integrated Spring Security for JWT-based authentication and role-based access control across a Spring Boot application serving 500+ internal users.
- Configured GitHub Actions CI/CD pipeline to automate build, test, and deployment stages, reducing manual release effort and catching regressions early.
- Participated in daily stand-ups and sprint planning within an Agile team; managed source code and reviewed pull requests on GitHub.

ICT Executive · PC FIX Computer Systems

April 2021 – November 2024 | No. 746 A1/2 Galle Road, Kaluthara South

- Maintained and improved company websites, ensuring uptime and content accuracy.
- Performed database maintenance, troubleshooting, and backup/recovery operations.
- Managed IT systems, network infrastructure, and provided hardware diagnostics and technical support.
- Diagnosed and resolved technical issues; assisted with server and network maintenance.

PROJECTS

E-Commerce Web Application

React, Spring Boot, MySQL, Maven, JWT, GitHub Actions · 2025

- Built a full-stack e-commerce platform with a React SPA frontend and Spring Boot REST API backend, using MySQL for product, order, and user data.
- Implemented JWT-based authentication and role-based access control using Spring Security, supporting customer and admin roles.
- Designed RESTful API endpoints for product management, cart, and order processing; documented and tested all endpoints using Postman.
- Set up a GitHub Actions CI workflow to lint and test the codebase on every pull request.

Point-of-Sale System

Java, JavaFX, MySQL, Maven, Layered Architecture · 2025

- Designed a desktop POS application with JavaFX UI and a layered (DAO/Service/Controller) architecture, separating concerns for maintainability and testability.
- Implemented inventory management, customer records, and daily sales reporting with MySQL; used JDBC connection pooling for performance.
- Managed builds with Maven and versioned the codebase on GitHub with a feature-branch workflow.

EDUCATION

BSc (Hons) in Computing	Wrexham University, UK	<i>Currently Reading</i>
Higher Diploma in Software Engineering	IJSE	<i>Currently Reading</i>
National Diploma in ICT	TVEC	<i>Completed</i>
G.C.E. Advanced Level	Sri Sumangala College, Panadura, Sri Lanka	

ADDITIONAL INFORMATION

Address	No. 620/C Kithulawa, Kaluthara South 12000, Kaluthara, Sri Lanka
Languages	Sinhala (Native), English (Professional Working Proficiency)
Interests	system design, backend architecture, CI/CD automation, developer tooling
